

To whom it may concern

28th February 2013

This letter is to confirm that Darko Petrovic was employed in our Research & Development Software Department at Fujitsu Technology Solutions GmbH Augsburg from 2nd April 2012 until 28th February 2013.

Darko was employed in the capacity of internship student, as part of his university degree programme Electrical Engineering at University of Kragujevac, Serbia.

In his role Darko was responsible for:

- Software development of information and Management Systems as Multi-Tier ASP .NET applications under C# and SQL
- Development of application "Multi Project Tool" for manage projects including database design
- Development of extensive specialized reports for Project Management Software System "Milestone Process Control" for progress development of Fujitsu computer projects
- Performing tests and creating documentation
- As development environment was used Microsoft Visual Studio 2008/2012, Team Foundation Server under Microsoft Windows Operating Systems, relational databases design under Microsoft SQL Server 2008 R2

Darko demonstrated a high performance respectively his flexible application. Darko's ability to work under pressure was far above average and he was therefore able to carry out all his duties within a tight time-frame. Darko always held a very keen perception concerning all his tasks.

Darko worked very reliable and independent, with an initiative above average. With his performance, we were always satisfied. His behaviour toward superiors and colleagues was always impeccable.

We really appreciated his enthusiasm and help over the past 11 months. We wish him all the best with his future plans and continued success in his studies.

Best regards
Fujitsu Technology Solutions GmbH

Wolfgang Wibihal
Manager Quality Assurance
